

Nanni Gaias Trio

T.O.T.B. (Think Outside The Box)

(Nanni Gaias dr, g & fx, Giuseppe Spanu g, Emanuele Contis sax, piano & fx)

Nanni Gaias Trio proposes a musical experiment, a sort of cross-cultural project that unites worlds and ways of living and conceiving music.

"T.O.T.B" is a project perfectly immersed in the synthesis between jazz and chillout, the result of a long friendship that stems from a common and shared musical path.

A sound that embraces the thousand faces of black music, to then meet ambient and ethno-beat in a summary of passion and seduction.

There is a strong need for present and contemporary, which based on the assimilation of many different stimuli seeks its own identity and originality.

A project that aspires to a synthesis of all the experiences gained over the years, immersed in the love of life and music.
